

YOUR LEAGUE IS MORE THAN GAME DAY. MAKE IT A **COMMUNITY**.

Rinkd is the **community & fan-engagement platform built for hockey** — the feeds, moments, player-of-the-game votes, photos and live scores that keep players, families, and fans coming back and turn every game into something worth following and sharing. **The part the admin tools forget: what happens around the game.** (It runs your registration and scoring too — but the magic is the community.)

THE ENGAGEMENT ENGINE

Team & league feeds

One home for comms, highlights, and chatter — not five group chats and a Facebook page.

Game Puck

Fans vote player-of-the-game after every game — a fun, sharable moment that pulls people back in.

Auto game recaps

Every final posts a recap with the score + stats — instant content, zero work.

Photo & video gallery

Sortable by team; players and families post the moments — one tap to share to Instagram & Facebook.

Follow players & teams

Every player and team gets a page; fans follow along and the community compounds.

Live scores & standings

Real-time on every phone — the hook that gets the whole rink (and those at home) watching.

...AND IT RUNS YOUR OPERATIONS, TOO

Registration & payments (adult leagues today), scheduling, rosters, stupid-proof volunteer scorekeeping, live stats & standings, and sponsor inventory — all in one app, layered on top of the tools you already use.

BUILT FOR EVERY LEVEL

LEAGUES & TOURNAMENTS

Keep players and families engaged between games — the retention layer that turns a season into a community.

PRO & MINOR LEAGUES

A real fan home — live feed, follow players, Game Puck, and sponsor inventory to monetize the audience. Ideal for expansion markets building a fanbase.

WHY OPERATORS SAY YES

- **Engagement is retention** — the community keeps players and fans coming back, and grows the game for you.
- **The layer the admin tools don't have** — registration and scoring get people in; Rinkd is what keeps them.
- **Your stack, your call** — go full all-in-one, or run just Rinkd's social/community layer on top of your existing tools. Additive or a full replacement — you choose.
- **Built for hockey, live today** at rinkd.app, in production with give-first pilots.

LET'S PROVE IT — FREE

Rinkd will set up and run a pilot for your league or event at no cost. If it makes the experience better, we keep going. If not, you walk away.
